

COLLAGEN PEPTIDES + MCT POWDER

COLLAGEN PEPTIDES + MCT POWDER

Keto Friendly & Paleo Approved

With over 400% category growth this past year, collagen peptides—sourced from grass-fed, pasture-raised bovine and other animal sources—provide a full spectrum of collagen to ensure your customers enjoy a natural, high-quality, and best-tasting source to help improve hair, skin, nails, joint, bones, and gut health.*

The addition of MCT powder (Medium Chain Triglycerides) creates a powerhouse product which may also support increased energy levels, enhance satiety and promote focus, mental clarity, and optimal cognitive* function for potent effects your customers will love.

Water Soluble - Easy To Mix – Pasture Raised

SIZE: 170 Grams (30 day supply)
FLAVOR: Unflavored | Nothing Added
PACKAGING: 20oz White HDPE Bottle
STARTING MOQ: 500 Units

Manufactured In A GMP Facility
Mixes Instantly
Unflavored
Easily Absorbed
Mixing Scoop Inside
Keto Friendly & Paleo Approved

HOW TO USE

Stir one scoop into your favorite beverage (at least 8 oz), hot or cold. Or, blend into your favorite smoothie. Drink once or twice daily, depending on your protein needs.

Collage Peptides + MCT Powder

Collagen is the most abundant protein throughout the body and provides the structure and building blocks for hair, skin, nails, bones, tendons, ligaments, and more, making it one of the most vital nutrients to support the body's ability to perform and look healthy, young, and vibrant.

Yet unfortunately, as we get older, as well as when our bodies are stressed, levels decline. In addition, lifestyle choices, such as excessive sugar consumption, too much time in the sun, and smoking can deplete collagen levels.

Experts are now recommending collagen supplements to help promote optimal health and vitality by helping to restore collagen levels. One double-blind, placebo-controlled study looked into the anti-aging properties of collagen. Women ages 35 to 55 who used 2.5 to 5 grams per day for 8 weeks enjoyed improved skin elasticity and moisture and reduced roughness. Another recent study found in the *International Journal of Medical Sciences* found people suffering from joint pain who supplemented with collagen improved daily activities like walking up stairs and sleeping.*

Our researchers choose only the highest quality, most effective, and researched-backed Collagen Peptides. But they didn't stop there. They combined this powerful ingredient with a potent MCT Powder blend for even more benefits.

MCT stands for medium-chain fatty acids. Most people now realize that not all fats are created equal but may not fully understand the potential benefits of MCT powder. These functional fats have been shown in research to help increase energy levels, metabolic rate, and fat burning; enhance satiety to help manage appetite; improve weight management; and support cognitive functioning by increasing ketone bodies.*

Together, collagen peptides + MCT powder may provide powerful benefits your customers are seeking for improved beauty from within.
